

Informations related to the master thesis/internship for the specialized Master in Data Science, Big data

In the program, Students can choose between a classical master thesis or an internship in a company.

In case you go for a master thesis, we ask you to provide the name of your academic supervisor at the ULB together with the title of your master thesis for March 31 of the academic year. We ask you to write a substantial document (minimum 40 pages) on a scientific subject discussed with your supervisor. We want you to provide all the informations (thesis director, subject) for March 31 of the academic year. Your final work must be sent to the jury before the oral defense. The secretary will communicate the dates during the academic year. Typically oral defenses are organized in June and late August/beginning of September (around the exams periods).

In case you go for an internship, the minimal/ maximal duration of the internship is not fixed. However, a substantial report (minimum 40 pages) of internship must be sent to the jury before the oral defense. The secretary will communicate the dates during the academic year. Typically oral defenses are organized in June and late August/beginning of September (around the exams periods).

Please note that for an internship in a company, a «contract» between the company and the ULB must be signed. The contract document is available on the Université Virtuelle (UV). Please contact our secretary Patricia Semeraro if you need more details (patricia.semeraro@ulb.ac.be). We ask you to provide all the informations (thesis director, company, supervisor in the company, subject) regarding your thesis/internship for March 31 of the academic year. This is a deadline but we encourage you to take care of the administrative details as soon as possible. Please contact Patricia Semeraro to submit the documents or if you need more details (patricia.semeraro@ulb.ac.be).
